Discussion. Research evidence can serve as a critical decision-making tool in partnerships between patients and health professionals. However, as the framework suggests, without patient and consumer engagement in the design, planning, interpretation, and dissemination of research findings, it is unlikely that the broader consumer population will find research evidence useful, much less use it ...

Engaging patients and consumers in research evidence

The Neuroendocrine Tumor Research Foundation-AACR Grant represents a joint effort to promote and support innovative cancer research. This grant is available to independent junior and senior investigators to develop and study new ideas and innovative approaches that have direct application and relevance to neuroendocrine tumors.

Neuroendocrine Tumor Research Foundation-AACR Grant

In selecting projects for funding, the Foundation seeks proposals for original initiatives led by outstanding individuals or teams. We are interested in projects that have a high expected return to society, exhibit a high degree of methodological rigor, and for which funding from the private sector, government, or other foundations is not yet widely available.
