Architect - Engineer Design Guide

Architects usually stick to designing only buildings, whereas engineers might design and build buildings, machines, roads, bridges, or any of a wide variety of other things. Engineers can also specialize in a number of different areas, such as civil, electrical, mechanical, structural, industrial, sound, and chemical engineering.

Whatâ€™s the Difference Between an Architect and an Engineer

Given an architect or engineer scale and a set of scaled drawings, you will be able to select the correct scale (tool) and interpret dimensions with 100 percent accuracy. Enabling Objectives 1) You will be able to identify the difference between engineer (civil) and architect scales.

Using Engineer and Architect Scales (A Primer)
