basket weaving made simple pdf

Basket weaving (also basketry or basket making) is the process of weaving or sewing pliable materials into two- or three dimensional artefacts, such as mats or containers. Craftspeople and artists specialised in making baskets are usually referred to as basket makers and basket weavers.. Basketry is made from a variety of fibrous or pliable materialsâ€”anything that will bend and form a shape.

Basket weaving - Wikipedia

A basket is a container which is traditionally constructed from stiff fibers, which can be made from a range of materials, including wood splints, runners, and cane. While most baskets are made from plant materials, other materials such as horsehair, baleen, or metal wire can be used. Baskets are generally woven by hand. Some baskets are fitted with a lid, others are left open.
