

biological science with dvd pdf

Scientific racism (sometimes referred to as race biology, racial biology, or race realism) is the pseudoscientific belief that empirical evidence exists to support or justify racism (racial discrimination), racial inferiority, or racial superiority. Historically, scientific racist ideas received credence in the scientific community but are no longer considered scientific.

Scientific racism - Wikipedia

Welcome to Psychology at CMU. With nearly 30 award-winning faculty and almost 150 people in total, we are a vibrant community whose research continues our Department's 100 year tradition of studying the deeper mechanisms and processes underlying human behavior and its neural bases. Innovation is in our DNA: our department has been at the center of helping create new scientific initiatives in ...

Intelligent design (ID) is a pseudoscientific argument for the existence of God, presented by its proponents as "an evidence-based scientific theory about life's origins". Proponents claim that "certain features of the universe and of living things are best explained by an intelligent cause, not an undirected process such as natural selection." ID is a form of creationism that lacks empirical ...

Know Your Fats Butter is better for your brain! Yes, butter provides the brain with the nutrients it needs: Cholesterol: The highest concentration of cholesterol occurs in the brain, where it plays an especially important role in memory formation. Seniors with the highest cholesterol levels have the best memory function.

Know Your Fats Archives - The Weston A. Price Foundation

Bispecific antibodies (bsAbs) combine specificities of two antibodies and simultaneously address different antigens or epitopes. BsAbs with “two-target” functionality can interfere with multiple surface receptors or ligands associated, for example with cancer, proliferation or inflammatory processes.
