For much of the last century, Americaâ€™s mothers were given poor advice and were discouraged from breastfeeding, to the point that breastfeeding became an unusual choice in this country.

### **The Surgeon General's Call to Action to Support Breastfeeding**

Abstract. Breastfeeding and human milk are the normative standards for infant feeding and nutrition. Given the documented short- and long-term medical and neurodevelopmental advantages of breastfeeding, infant nutrition should be considered a public health issue and not only a lifestyle choice.

In many areas of Africa breastfeeding in public is the norm. Babies are commonly carried on a mother's back in a length of cloth and merely moved to the front for feeding. The nursing mother may shield the view of the baby nursing, but generally no attempt is made to hide the baby and the mother's breast from view.
