User: A user is a person that has an account in the LMS. Users can log onto the system. Users are given access to classes as teachers or students. It is possible for the same user to be a teacher in one class and a student in another.

Help: Cambridge LMS

The study of categories is an attempt to axiomatically capture what is commonly found in various classes of related mathematical structures by relating them to the structure-preserving functions between them. A systematic study of category theory then allows us to prove general results about any of these types of mathematical structures from the axioms of a category.

Creationism is the religious belief that the universe and life originated "from specific acts of divine creation", as opposed to through natural processes, such as evolution.. Creationism covers a spectrum of views including evolutionary creationism, [citation needed] but the term is commonly used for literal creationists who reject various aspects of science, and instead promote ...

The theory of evolution is a naturalistic theory of the history of life on earth (this refers to the theory of evolution which employs methodological naturalism and is taught in schools and universities).

Merriam-Webster's dictionary gives the following definition of evolution: "a theory that the various types of animals and plants have their origin in other preexisting types and that the ...
