The field of geospatial artificial intelligence, or geoAI, has used many of the same techniques within general artificial intelligence (AI). However, there are both challenges and opportunities that AI has to face in applying geospatial knowledge that also addresses issues of time and spatial bias.

Geospatial Artificial Intelligence: Emerging Trends and

Artificial Intelligence (AI) techniques are now being used by the practicing engineer to solve a whole range of hitherto intractable problems. This journal provides an international forum for rapid publication of work describing the practical application of AI methods in all branches of engineering.. Focal points of the journal include, but are not limited to innovative applications of:
