Due to a lapse in appropriations, EPA websites will not be regularly updated. In the event of an environmental emergency imminently threatening the safety of human life or where necessary to protect certain property, the EPA website will be updated with appropriate information.

Research | US EPA

The environmental movement (sometimes referred to as the ecology movement), also including conservation and green politics, is a diverse scientific, social, and political movement for addressing environmental issues. Environmentalists advocate the sustainable management of resources and stewardship of the environment through changes in public policy and individual behavior.

Most Americans recognize climate change, but some are still unsure about its causes. Tens of thousands of scientists in more than a hundred nations have amassed an overwhelming amount of evidence pointing to a clear conclusion: Humans are the main cause. We're the ones who burn fossil fuels and ...

9 ways we know humans triggered climate change

The HDI simplifies and captures only part of what human development entails; it does not reflect on sustainability, inequalities, poverty, empowerment, etc. The 2016 Human Development Report introduced a set of dashboards including Sustainable Development Dashboard which focuses on sustainability in the environmental, economic and social realms. The HDI, when supplemented with data from ...
