The concept of race as a rough division of anatomically modern humans (*Homo sapiens*) has a long and complicated history. The word race itself is modern and was used in the sense of "nation, ethnic group" during the 16th to 19th century, and only acquired its modern meaning in the field of physical anthropology from the mid 19th century. The politicization of the field under the concept of ...

The environmental impact of paper is significant, which has led to changes in industry and behaviour at both business and personal levels. With the use of modern technology such as the printing press and the highly

mechanized harvesting of wood, disposable paper became a relatively cheap commodity, which led to a high level of consumption and waste. The rise in global environmental issues such ...
