

experiential approach to organization pdf

Experiential learning is the process of learning through experience, and is more specifically defined as "learning through reflection on doing". Hands-on learning is a form of experiential learning but does not necessarily involve students reflecting on their product. Experiential learning is distinct from rote or didactic learning, in which the learner plays a comparatively passive role.

Tweet "This is the most comprehensive review and list of experiential learning articles I have found. A masterful piece from Mr. Greenaway!" Conner, M.L. "Learning from Experience."

Experiential learning articles + critiques of David Kolb's

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...
