

### **fingerprints and other ridge pdf**

Fingerprint identification, known as dactyloscopy, or hand print identification, is the process of comparing two instances of friction ridge skin impressions (see Minutiae), from human fingers or toes, or even the palm of the hand or sole of the foot, to determine whether these impressions could have come from the same individual. The flexibility of friction ridge skin means that no two finger ...

This is a discussion of the various abuses of power which have been exhibited by the US government, often under the guise of 'fighting terrorism' or some other popular goal. Includes news articles about the abuse of power and the perpetuation of government agencies which have too much power, too little restraint, and too many bad ideas.
