Noodling is fishing for catfish using one's bare hands, and is practiced primarily in the southern United States. The noodler places their hand inside a discovered catfish hole. Many other names are used in different regions for the same activity. The term noodling, although today used primarily towards the capture of flathead catfish, can and has been applied to all hand fishing methods ...

Extant catfish species live inland or in coastal waters of every continent except Antarctica. Catfish have inhabited all continents at one time or another. Catfish are most diverse in tropical South America, Asia and Africa with one family native to North America and one family in Europe. More than half of all catfish species live in the Americas.
