Linguistics. In linguistics, semantics is the subfield that is devoted to the study of meaning, as inherent at the levels of words, phrases, sentences, and larger units of discourse (termed texts, or narratives). The study of semantics is also closely linked to the subjects of representation, reference and denotation. The basic study of semantics is oriented to the examination of the meaning of ...

Systemic functional linguistics (SFL) is an approach to linguistics that considers language as a social semiotic system.. It was devised by Michael Halliday, who took the notion of system from J. R. Firth, his teacher (Halliday, 1961). Firth proposed that systems refer to possibilities subordinated to structure; Halliday "liberated" choice from structure and made it the central organising ...

Personality psychologistsâ€”perhaps even more than in some other disciplinesâ€”are deeply interested in what is common to personality descriptions in all cultures and societies. The purpose of this chapter is to discuss the potential universality of the Five Factor Model (FFM) of general personality structure. The chapter begins with a discussion of what is meant, or should be meant, by a ...
