### **use of vegetation in pdf**

Herbicides are useful tools for vegetation management and weed control. However, we recognize there may be potential impacts to health and the environment. Our crews use herbicides only when necessary and use is minimized whenever possible. We uses herbicides two ways: to maintain a vegetation ...

### **WSDOT - Using herbicides while maintaining vegetation**

Vegetation is an assemblage of plant species and the ground cover they provide. It is a general term, without specific reference to particular taxa, life forms, structure, spatial extent, or any other specific botanical or geographic characteristics. It is broader than the term flora which refers to species composition. Perhaps the closest synonym is plant community, but vegetation can, and ...

Land clearing in Australia describes the removal of native vegetation and deforestation in Australia. Land clearing involves the removal of native vegetation and habitats, including the bulldozing of native bushlands, forests, savannah, woodlands and native grasslands and the draining of natural wetlands for replacement with agriculture, urban and other land uses.
