21st-century classical music is art music, in the contemporary classical tradition, that has been produced since the year 2000.. Some elements of the previous century have been retained, including postmodernism, polystylism and eclecticism, which seek to incorporate elements of all styles of music irrespective of whether these are "classical" or not—these efforts represent a slackening ...

Many science fiction works have been set in the 21st century (years 2001 to 2100). With humanity now in the 21st century, many of the predictions of these works have so far been proven obsolete. This page lists only predictions regarding the 21st century, as opposed to contemporary accounts of the actual 21st century, which would be too numerous to list.

2025-2050. Unemployment is soaring. The second quarter of the 21st century is marked by a rapid rise in unemployment around much of the world.* This results in considerable economic, political and cultural upheaval. For most of the 200 years since the Industrial Revolution, new advances in technology and automation had tended to create more jobs than they destroyed.
